Sounds of Silence by Simon & Garfunkel

Verse 1:

```
Em                          D                                   Em
Hello darkness, my old friend, I've come to talk with you again.
                       C        G
Because of visions softly creeping, left its seeds while I was
  C      G                  C                                  G
still sleeping.  And the visions that were planted in my brain
         Em                 D          Em
still remains, within the sounds of silence.
```

Verse 2:

```
Em                              D
In restless dreams I walked alone narrow streets of cobble
Em                                C     G
stone.  'Neath the halo of a street lamp I turned my collar to
      C        G            C
the cold and damp when my eyes were stabbed by the flash of a
      G                    Em                        D
neon light that split the night and touched the sounds of
  Em
silence.
```

Verse 3:

```
Em                          D                              Em
And in the naked light I saw ten thousand people may more.
Em                 C        G                        C
People talking without speaking.  People hearing without
     G                       C                        G
listening.  People writing songs that voices never share and no
     Em                 D        Em
one dare disturb the sounds of silence.
```

Verse 4:

```
Em                          D                            Em
Fools said I you do not know silence like a cancer grows.  Hear
                          C    G                              C
my words that I might teach you, take my arms that I might reach
 G             C                              G
you.  But my words like silent raindrops fell, and echoed into
      D        Em
the well of silence.
```

Verse 5:

Em **D** **Em**
And the people bowed and prayed to the neon God they made. And
C **G** **C** **G**
the sign flashed out it's warning, in words that it was forming.
C
And the sign said the words of the prophets are written on
G **Em** **D**
subway walls and tenement halls, and whispered in the sounds of
Em
silence.
