

Better Today by Coffey Anderson CAPO 4 (// = pause)

Intro: G D Em C

*Riff (Starts after the D):

1) To see your face, to hear your voice
 and oh to touch you it is a dream come true.
 I'm standing here with my hand held out
 knowing that your love will never fade
 I stand amazed without a doubt.
 And I wanna hear your voice in the morning when I rise
 I think I know I'm just a normal man, only made of sand
 except when you're by my side!
 Will you love me, teach me? Don't leave me I pray!
 And when I and I'm thinking of the times,
 your hand's in mine, together we will stay.
 You made me better today, than I was before,
 and now my heart can rest I will search no more
 you made me better today.
